

Call: PhD Fellow- ships in Chemical Biology

The University of Konstanz, with its “Institutional Strategy to Promote Top-Level Research”, has been receiving continuous funding since 2007 within the framework of the Excellence Initiative by the German Federal and State Governments.

Konstanz Research School Chemical Biology

is an interdisciplinary graduate programme jointly offered by the Departments of Biology, Chemistry, and Computer & Information Science. The programme is supported by the German Excellence Initiative.

The Konstanz Research School Chemical Biology provides a research-driven doctoral education in the priority topics Synthetic Chemistry, Cellular Biochemistry, Biophysics, Biomedicine and Computational Life Science. The individually tailored training programme and the intensive supervision by an interdisciplinary thesis committee are the basic elements for the excellent educational standards of the graduate school.

The Konstanz Research School Chemical Biology invites applications for

Fellowships for PhD Students

from highly motivated and enthusiastic young researchers with a keen interest in interdisciplinary topics and with an excellent degree (Master or Diploma) in Biology, Chemistry, Computational Life Science, or related areas.

The current call offers stipends financed by our graduate school with the starting date 1 October 2017, as well as stipends granted by the DAAD (Graduate School Scholarship Programme, GSSP) with individual starting dates in 2018.

The research projects and the application procedure are specified on the KoRS-CB homepage:

– chembiol.uni-konstanz.de

All applications and supporting materials must be submitted via the Online Application Platform provided.

The deadline for applications is 15 July 2017.
